

Scoring System for Club Galas

The scoring system for club galas is based on the BAGCAT and GB points systems and aligns the club galas with the Somerset Age Groups, the Western Counties and the National Championships. Points are awarded for times not finishing position. The system also allows swimmers to concentrate on their best strokes as they get older. All four strokes count for the 8 and unders, 3 strokes count for the 9 to 12 years and only 2 strokes for those 13 years and older.
